Note: Contact details should be replaced with your actual phone number, email and (optionally) LinkedIn before sending this CV.

SAMPLE PORTFOLIO

Marketplace Catalog & Listing Workflow — Myntra-focused

01	PRODUCT DATA Collect seller-provided product information: title, category, fabric/material, colour, sizes, measurements, MRP/selling price and images.
02	EXCEL / CSV Map the supplied data into the marketplace template. Check required fields, SKU/variant relationships and product-level consistency.
03	ATTRIBUTES Fill category-specific attributes such as article/category, fabric, fit, pattern, sleeve, neck, size and other required fields.
04	IMAGE PREP Check image dimensions/size, organize product views, prepare files where required and keep product-image mapping consistent.
05	UPLOAD Upload catalog/data and images through the seller panel according to the platform workflow.
06	VALIDATION Review errors, identify missing/incorrect fields, make corrections and raise seller-support tickets when an issue requires platform intervention.

SAMPLE PRODUCT DATA STRUCTURE

Example only — values below are illustrative and are not presented as a real client listing.

Field	Example
Product	Men's Regular Fit T-Shirt
Category	T-Shirts
Fabric	Polyester
Colour	Black
Sizes	S / M / L / XL
Variant structure	1 product × 4 size SKUs
Image set	Front / Back / Side / Detail
Work performed	Data mapping → CSV → image check → upload → validation

QUALITY CHECKS

- ✓ Required fields are filled before upload.
- ✓ SKU, size and colour relationships are consistent.
- ✓ Product images are matched to the correct product.
- ✓ Duplicate or conflicting data is checked where possible.
- ✓ Validation errors are reviewed before the listing is considered complete.
- ✓ Platform-side issues are documented clearly in support tickets.

SERVICE PORTFOLIO

A practical catalog-support package for e-commerce agencies and marketplace sellers.

CATALOG DATA • CSV / Excel filling • Attribute mapping • SKU & variant mapping • Bulk product data	MYNTRA SUPPORT • Seller-panel operations • Style/catalog work • Image upload • Listing corrections & tickets
IMAGE SUPPORT • Image size checks • Basic resizing/preparation • Product-view organization • Upload support	CONTENT • Product titles • Basic descriptions • Specifications • Basic marketplace SEO

COLLABORATION OPTIONS

Project-based	A defined number of products/SKUs for a specific catalog project.
Per-product / SKU	Useful when workload changes frequently and output is measured by completed units.
Weekly support	Dedicated remote catalog support for recurring seller workloads.
Ongoing agency support	Regular listing, data and correction work under the agency's SOPs.

SAMPLE AGENCY INTRODUCTION

Hello, I'm Abhishek, a freelance E-Commerce Catalog Executive with hands-on Myntra seller-panel experience. I can support your team with CSV/Excel catalog filling, product attributes, SKU/size/colour mapping, image preparation/upload, listing corrections and marketplace data work. I'm available for remote project-based or ongoing agency support and can follow your internal SOPs.
